SUSTech Southern University of Science and Technology

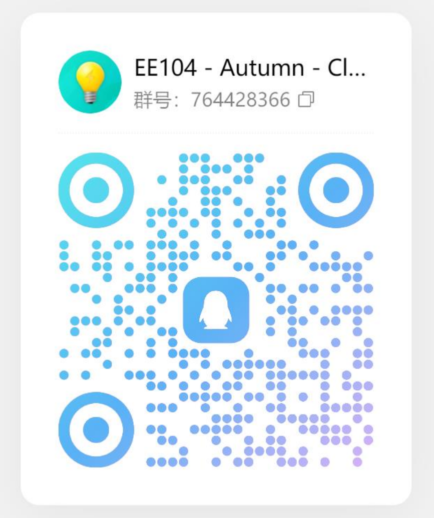
# EE104 Course Information

Jun MA | 马俊
E-mail: maj3@sustech.edu.cn
南方科技大学-工学院-电子与电气工程系-PN Lab

# Course information (a):

| Class | Language | Time | Location | QQ group |
|---|---|---|---|---|
| 1 | English | Tuesday, 16:20-18:10 | Teaching Building 1, 306 | 764 428 366 |
| 4 | Chinese | Tuesday, 14:00-15:50 | Teaching Building 1, 306 | 767 151 949 |

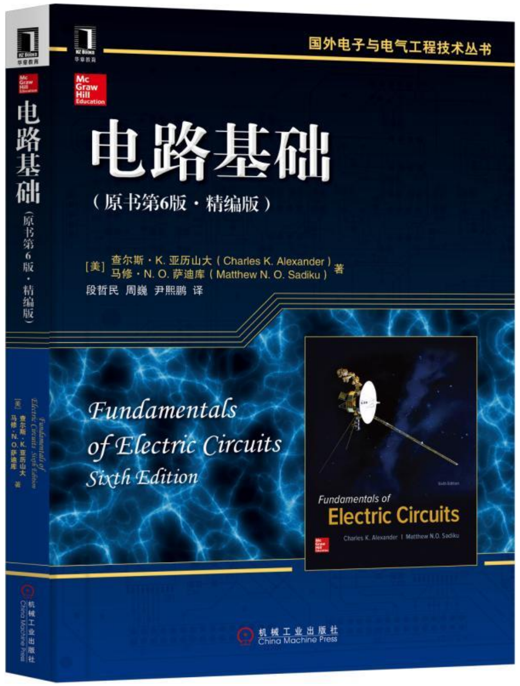
- **Course code: EE104**
- **Credits (theory only): 2**
- **All materials will be in English other than the lecture in class.**
- **Teaching materials will be distributed within the QQ groups.**
- **Assessment of performance:**
  - Attendance + homework: 20%
  - Mid-term Exam: 40 %
  - Final Exam: 40 %
  - Bonus: 10 % (Participation in class)

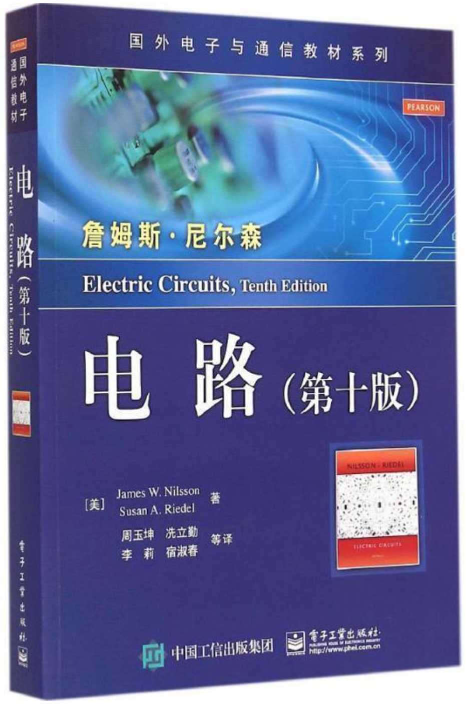


Class 1

Class 4

# Course information (b): the textbook





**Textbook**

Charles K. Alexander & Matthew N. O. Sadiku,

"Fundamentals of electric circuits," 5th edition.

**Also recommended**

James W. Nilsson & Susan A. Riedel,

"*Electric circuits*," 9th edition.

# Course information (c): TAs

SOUTHERN UNIVERSITY OF SCIENCE AND TECHNOLOGY

- How to reach the TAs: You can find the contacts of the TAs in the following table.
- Tutorial: TBD
- Assignments: The assignments will be released at the end of the lecture.
- TA office hour: One hour from each TA every week. **RESERVE** before going.

| Name | Class | Duty | TA office hour | TA office | E-mail |
|---|---|---|---|---|---|
| 李熠<br>Yi, LI | 1 | assignments \| exams \| QA | TBD | TBD | 1029879532@qq.com |
| 肖祺祺<br>Qiqi, XIAO | 1 | assignments \| exams \| QA | TBD | TBD | 12433012@mail.sustech.edu.cn |
| 庄泽咏<br>Zeyong, ZHUANG | 4 | assignments \| exams \| QA | TBD | TBD | 1270881472@qq.com |
| 洪朴<br>Pu, HONG | 4 | assignments \| exams \| QA | TBD | TBD | 12332195@mail.sustech.edu.cn |

# Course information (d): calendar part I

- DC circuits:

| | | Class 1 | Class 4 | Assignments | Assignments to hand in |
|---|---|---|---|---|---|
| Lesson 01 | Basic Concepts | 09/10 | 09/10 | No | -- |
| Lesson 02 | Basic Laws | 09/24 | 09/24 | Yes | -- |
| Lesson 03 | Methods of Analysis | 10/08 | 10/08 | Yes | Assignments of Lesson 02 |
| Lesson 04 | Circuit Theorems | 10/15 | 10/15 | Yes | Assignments of Lesson 03 |
| Lesson 05 | Operational Amplifiers | 10/22 | 10/22 | Yes | Assignments of Lesson 04 |
| Lesson 06 | Capacitors and Inductors | 10/29 | 10/29 | Yes | Assignments of Lesson 05 |
| Lesson 07 | First-Order Circuits | 11/05 | 11/05 | Yes | Assignments of Lesson 06 |
| Lesson 08 | Second-Order Circuits | 11/12 | 11/12 | No | Assignments of Lesson 07 |
| Mid exam | | To be announced | | | -- |

# Course information (e): calendar part II

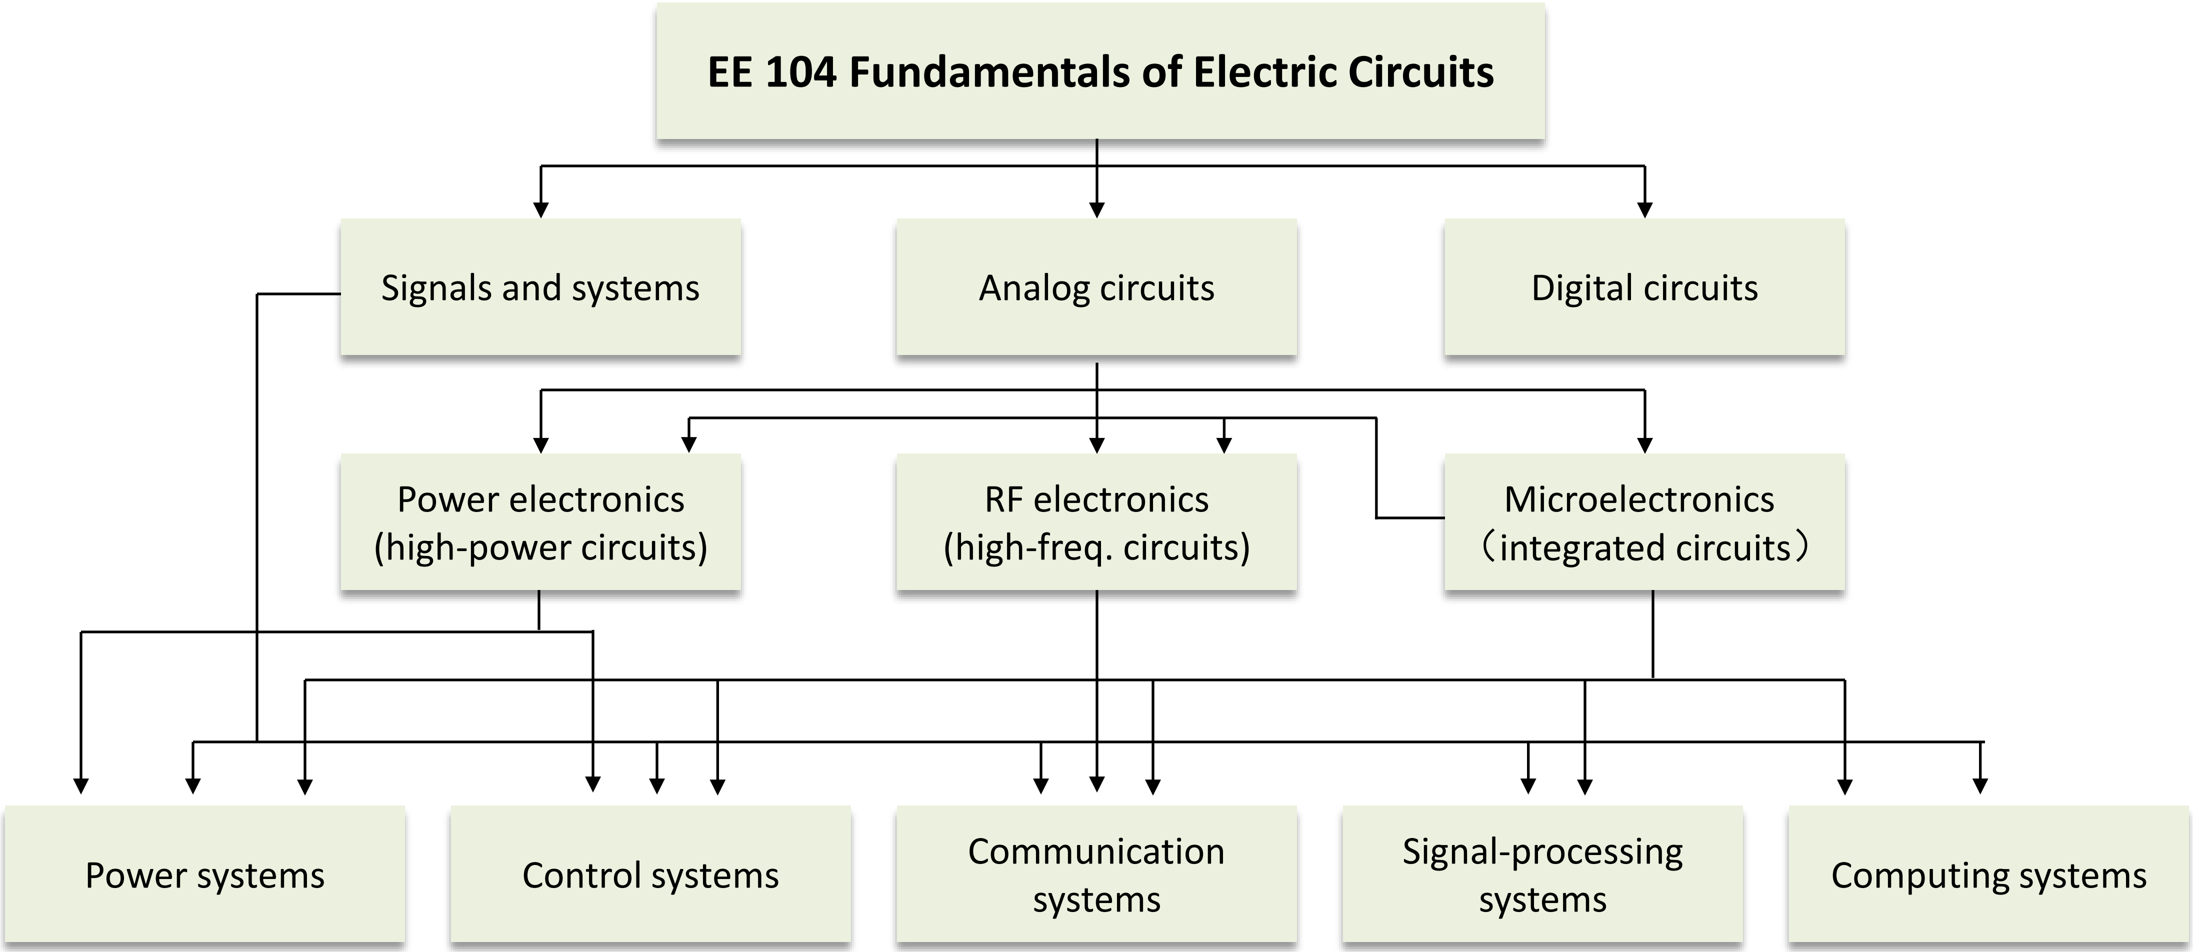
- AC circuits:

| | | Class 1 | Class 4 | Assignments | Assignments to hand in |
|---|---|---|---|---|---|
| Lesson 09 | Sinusoids and Phasors | 11/19 | 11/19 | Yes | - |
| Lesson 10 | AC circuits | 11/26 | 11/26 | Yes | Assignments of Lesson 09 |
| Lesson 11 | Frequency Response | 12/03 | 12/03 | Yes | Assignments of Lesson 10 |
| Lesson 12 | Magnetically coupled circuits | TBD | TBD | Yes | Assignments of Lesson 11 |
| Lesson 13 | Laplace Transform | 12/17 | 12/17 | Yes | Assignments of Lesson 12 |
| Lesson 14 | Application of Laplace Transform | 12/24 | 12/24 | Yes | Assignments of Lesson 13 |
| Final exam | | To be announced | | | -- |

# Course information (g): tips

1. Remember to put your name, student ID, and the class number in your assignments and in your emails.
2. The QQ group is a public space, so be careful about your use of language.
3. This course is not an easy one.
4. Read the textbook before the lecture.
5. Your brain is similar to a muscle and practice is necessary to build it.
6. Always ask yourself: “what have I learned today?” and try to best structure your knowledge.
7. Relax and enjoy.

# Why this course? It is essential for EE

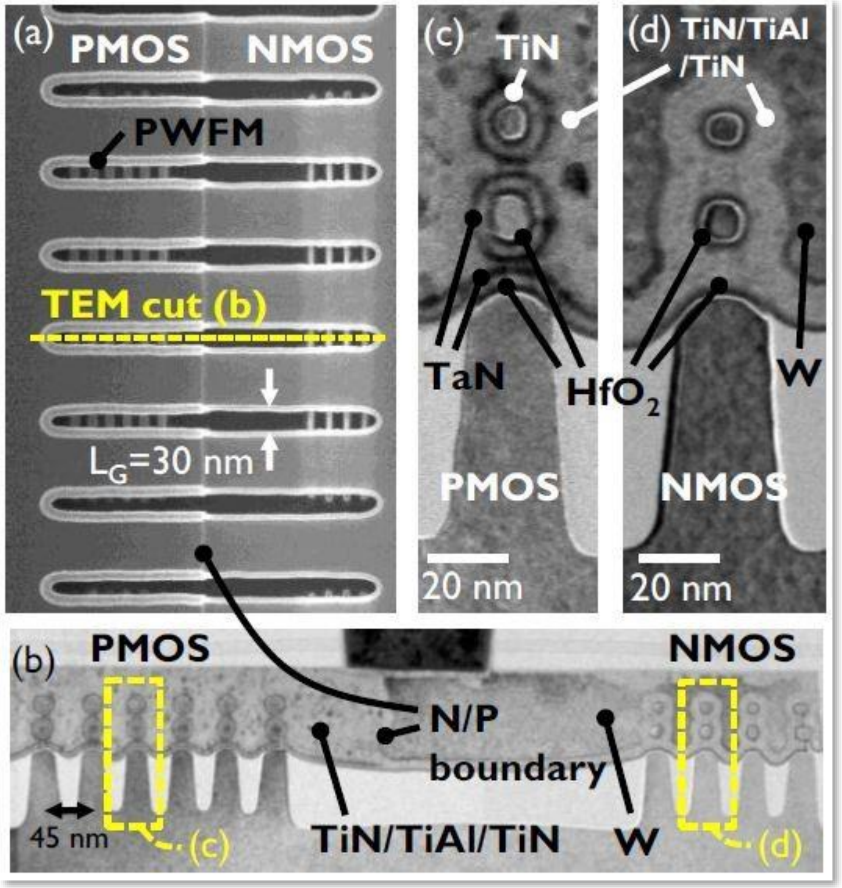


# Why this course? A new world to you

- You have learned about science, philosophy and arts, but not engineering.
- Welcome to this new world!

# Why this course? The beauty of making

南方科技大学
SOUTHERN UNIVERSITY OF SCIENCE AND TECHNOLOGY



"Any sufficiently advanced technology is indistinguishable from magic."

-- Arthur Clarke, 1973

Stanford University ENGR 40M course: Our goal is for you to become the magician and not part of the audience.

-- Prof. Steven Bell

# Welcome to EE104!
